EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Josh Snider (Reg. No. 47954) on April 6, 2005.

The application has been amended as follows:

On page 1, line 3 of the specification, before "BACKGROUND OF THE INVENTION",
--This is a continuation of application Serial No. 09/814,079, filed March 21, 2001 (abandoned).-
- has been inserted.

The title has been changed to --STORAGE DEVICE [CAPABLE OF] ADJUSTING
TILT ANGLE OF SPINDLE MOTOR AGAINST REPLACEABLE STORAGE MEDIUM--.

2. The following is an examiner's statement of reasons for allowance: The prior art of record neither shows nor suggests a mechanism loading a storage medium into a body of a storage device in combination with the claimed constraining mechanism between a chassis and a lift plate on which a spindle motor is placed. The closest prior art of record is Kato (JP 6-215467 A). Kato shows a storage device comprising constraining mechanism 18 between lift plate 10A and chassis 15, further comprising a mechanism ("cartridge drawer device which is not illustrated", see ¶ 0018); however, the reference is silent regarding whether the mechanism loads a storage medium into a body of the storage device (see especially magazine 11 in Fig. 2).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
